

Core Features - GPS TimeTrack Standard

GPS Location Tracking

- ▶ See where your workers are on a map
- ▶ View breadcrumb trails showing historical worker location(s)
- ▶ Track speed and direction

Wireless Timecards

- ▶ Capture accurate and tamper-proof timecards
- ▶ Location is captured for the start/end of shifts and breaks, showing both where and when workers clock in and out

Job Activity Tracking

- ▶ Record job start and stop times
- ▶ Location is captured for job start/end times
- ▶ Geofencing – be alerted when workers enter or exit specific areas
- ▶ Data Capture – mobile workers collect job information directly through the phone with Xora's FlexFields™ feature
- ▶ Job Dispatching – job details are sent to the phone using the Xora web interface
- ▶ ADP® Compatibility – total payroll automation, from punch to paycheck
- ▶ Barcode Scanning – input data using barcode scanning (support for attachable and Bluetooth scanning units)

Premier adds:

- ▶ Wireless Forms – create phone-based forms to capture information electronically
- ▶ Custom Workflows – Create custom job phases that map directly to your workflow
- ▶ JobPix™ Camera Phone Support – Capture photos on the job with supported camera phones
- ▶ Overtime Controls – Control payroll expenses with overtime limits
- ▶ FieldAlert™ - For urgent assistance, workers can send a location-stamped alert at the touch of a button

EZNav™ (+\$6.99/phone per month) adds:

- ▶ EZNav, powered by Garmin® provides audible turn-by-turn GPS guided driving directions on the handset

Simple. Powerful. Affordable.
